Deflection: Tested on varying CBR ground conditions using a 300mm diameter steel
platen with 6 tonnes load to simulate the pressure of an HGV wheel.

Ground CBR 11.35% : Deflection 7.71mm

Ground CBR 8.58% : Deflection 8.66mm

Ground CBR 4% : Deflection 9.46mm

Installation rate: Install approximately 60 mats per hour
with a team of 4 plus a forklift driver

Guarantee:

MaxiTrack temporary roadway mats are guaranteed
for 5 years against breakage by vehicles up to 130
Tonnes UDL (Uniformly Distributed Load).

It is the user's responsibility to assess the load-bearing
capacity of the ground, and to only operate vehicles
within the weight that the ground is capable of safely
supporting. Ground-Guards Ltd accepts no liability
whatsoever for any damage, loss or injury arising
from the ground conditions on which these
products are used.

MaxiTrack mats are not suitable to use for bridging
purposes. Damage caused by mechanical equipment
(e.g. cuts by digger buckets) or sharp protrusions
beneath the mats is not covered by this guarantee.
